

FABRIZIO TECH

Affiliate Program

Partner Package

A quiet, name-tagged affiliate program for partners who want to share Fabrizio Tech with their network and get paid when sales close. No portals, no dashboards, no minimum thresholds. Pick your code, share, get paid.

tammy@mindpalacehypno.com · www.fabriziotech.com

HOW IT WORKS

The Program, In Four Steps.

Fabrizio Tech runs a name-tagged affiliate program. You share, your audience buys, you get paid.

1. You're recruited and given referral active status. Your referral code is logged.
2. You share Fabrizio Tech products with your audience, in your own voice and style.
3. When a buyer references your code at checkout or on the discovery call, the sale is tagged to you.
4. Payout sent via PayPal after the sale closes and payment clears.

No links to manage. No dashboards to log into. No minimum thresholds. Your code is the tracker.

PAYOUT TIERS

What You Earn Per Sale.

Tier	Payout	Product	Sale Price
1	\$50	Haven	\$499
1	\$50	Lighthouse	\$499
1	\$50	Cira	\$497
1	\$50	Legacy	\$599
2	\$75	Beacon	\$697
2	\$75	Sova	\$799
3	\$100	Lemonade	\$899 / \$999
4	\$200	Canopy	\$8,999
5	\$300	Mosaic	\$6,999
6	\$500	Tapestry	\$8,999
6	\$500	Talon	\$8,999

Every Product, On One Page Each.

These are short reference sheets — what each product is, who it's for, and three talking points you can use verbatim or adapt to your own voice. Lead with the buyer's fit, not the payout.

HAVEN

\$499 · Payout \$50

WHAT IT IS

Practice management built for healers, doulas, akashic readers, spiritual counselors, and program-based practitioners. Mobile-first, runs on the practitioner's own Google Sheets. AI assistant Emerald handles client conversations and admin support.

WHO IT'S FOR

Solo healers and counselors who run programs, sessions, or retreats and need a calm, organized backend without the SaaS subscription trap.

TALKING POINTS

- One-time price. No monthly fees, ever.
- Lives in their own Google Sheets — they own their data.
- Mobile-first, installs to the practitioner's phone.

LIGHTHOUSE

\$499 · Payout \$50

WHAT IT IS

Travel and event management OS for luxury travel curators, event planners, and DMCs. Dual-pricing transparency (client price vs. internal cost), live margin tracking, side-gig pipeline, document generation. AI assistant Gilligan.

WHO IT'S FOR

Travel agents, event planners, and small luxury travel businesses who want to track real margins on every booking and stop guessing on profitability.

TALKING POINTS

- See the real margin on every line of every itinerary.
- Document generation for proposals, invoices, and receipts.
- Side-gig pipeline tracks the revenue streams alongside core travel.

CIRA

\$497 · Payout \$50

WHAT IT IS

Solo wellness and movement practice management. Today dashboard, calendar, client onboarding with auto Drive folder and waiver, revenue tracking, rates, inventory (physical and digital), Document Factory for AI-assisted waivers and intake, retreat registration with deposits and balances. Multi-currency USD/GBP/EUR.

WHO IT'S FOR

Solo fitness, breathwork, and wellness practitioners running classes, sessions, and retreats without the overhead of Mindbody.

TALKING POINTS

- Built for solo operators — no staff seats, no per-user fees.
- Handles retreats end-to-end: registration, deposits, balances.
- Multi-currency support — USD, GBP, and EUR.

LEGACY

\$599 · Payout \$50

WHAT IT IS

Solo teacher and classroom automation. Built on Apps Script and Google Sheets so it lives where teachers already work.

WHO IT'S FOR

Individual teachers, tutors, and homeschool co-ops who want classroom admin handled without learning a new platform.

TALKING POINTS

- Runs inside Google Sheets — no new login.
- Built for one teacher, not an enterprise rollout.
- One-time price, owned forever.

BEACON

\$697 · Payout \$75

WHAT IT IS

Property and multi-unit operations automation for property managers and HOAs. Standalone product (separate from the school component also called Beacon inside Canopy). AI assistant Sage.

WHO IT'S FOR

Property managers, HOAs, and multi-unit operators tired of jumping between five tools to manage their portfolio.

TALKING POINTS

- Built for the "5–50 units" middle ground that enterprise tools overcharge for.
- Sage handles tenant communications.
- Sheets-native — your data stays yours.

SOVA

\$799 · Payout \$75

WHAT IT IS

24/7 AI customer support. Branded web chat widget plus two-way SMS, live tool-calling into the client's data, three-tier escalation, anti-hallucination filter, full agent takeover dashboard. The product is the AI — no separate persona name.

WHO IT'S FOR

Any business that needs always-on customer-facing chat without paying Intercom or Zendesk pricing forever.

TALKING POINTS

- Web chat plus SMS in one product.
- Pulls live data from the business's own systems.
- 9,900+ lines of production code — deployed and battle-tested.

LEMONADE

\$899 base / \$999 with Zest AI · Payout \$100

WHAT IT IS

Cleaning business operations. Customizable for adjacent field trades (landscaping, painting, handyman). Google Sheets plus Apps Script plus a web app. AI assistant Zest available on the upgraded tier.

WHO IT'S FOR

Cleaning business owners and field-trade operators running crews who need scheduling, client management, and ops without the per-seat SaaS bill.

TALKING POINTS

- Built for cleaning, customizable for any field trade.
- One-time price, no per-job fees.
- Discovery call required so the build matches the business.

CANOPY

\$8,999 · Payout \$200

WHAT IT IS

Three-part school administration platform. Ivy (AI director's assistant, 57 tools), Beacon (school CMS/SIS inside the school's own Sheets), and Legacy/Cotorra (bilingual parent chatbot). Saves directors 10+ hours per week.

WHO IT'S FOR

Private schools, micro-schools, and bilingual academies whose directors are doing admin instead of leading.

TALKING POINTS

- Three integrated products in one platform.
- Bilingual parent communication built in.
- Three production deployments running.

MOSAIC

\$6,999 · Payout \$300

WHAT IT IS

Boutique hotel and eco-resort management for single-property operators. Mobile-first, dark teal and gold interface. Modules: Dashboard, Reservations, Rooms (Vacant / Occupied / Cleaning / Maintenance / Blocked), Excursions, Transport, Kitchen, Comms, Reports, Settings. Tools-only, no AI.

WHO IT'S FOR

Boutique hotel owners, eco-resort operators, and single-property hospitality businesses who need real ops software without enterprise hotel-management pricing.

TALKING POINTS

- Every module a small property actually runs on, none of the bloat.
- Mobile-first — runs from a phone on the property.
- Eleven production modules. One-time price, owned forever.

TALON

\$8,999 · Payout \$500

WHAT IT IS

Mosaic on steroids. Multi-property, multi-employee hospitality operations with public-facing booking site. Includes Juniper (admin AI assistant) and Aquila (Sova-style customer-facing chatbot for the booking site). Operational dashboard with revenue, occupancy percent, open inquiries, upcoming arrivals, and overdue message flags.

WHO IT'S FOR

Hospitality groups, multi-property operators, and teams running more than one location or more than one venture.

TALKING POINTS

- Public booking site plus internal ops in one system.
- Two AI assistants — Juniper for admin, Aquila for guests.
- Multi-employee accounts and multi-venture support.

TAPESTRY

\$8,999 · Payout \$500

WHAT IT IS

Multi-location commercial parking permit management. 3–50 locations, 500–10,000 permits per month. Resident self-service, plate lookup under 100ms, tiered and flat pricing, audit trails, revenue splits. AI assistants Sage and Sova.

WHO IT'S FOR

Commercial parking operators managing permits across multiple lots, garages, or municipalities.

TALKING POINTS

- Sub-100ms plate lookup at scale.
- Revenue-split tracking built in.
- One-time price replaces per-permit SaaS bills that compound forever.

AFFILIATE VOICE

Voice Guidelines.

- Speak in your own voice. Authentic beats polished.
- No income claims, no guarantees, no "make \$500 easy."
- No fake urgency or pressure tactics.
- Lead with the product's fit for the buyer, not the payout for you.
- If asked about price, state it confidently. No "just" minimizers.

HOW TO GET PAID

The Whole Process.

1. Make sure your audience knows your code and uses it at checkout or on the discovery call.
2. Sale closes and payment clears.
3. PayPal payout sent.

That's the whole process. No invoices, no portals, no waiting periods past payment clearance.
